First Responder Storage Solutions

As the complexities of first responder technology continue to increase and the scale of hazards mount, personal protective gear storage, fire equipment storage, and paper records storage must be highly efficient and highly secure to allow for immediate response to any alarm or call. Spacesaver's comprehensive lineup of first responder storage solutions help firefighters, EMTs, and Paramedics save time - and make the most out of valuable floor space anywhere in the department.

GEAR AND EQUIPMENT STORAGE

Our selection of storage systems lets you keep your full range of essential mobility gear and life support equipment always ready for immediate deployment. Personal mobility bags, cold-weather packs, warm-weather packs, chemical packs, bulk bags and other essential gear can all be kept in one convenient, central mobility area for quick distribution when duty calls.

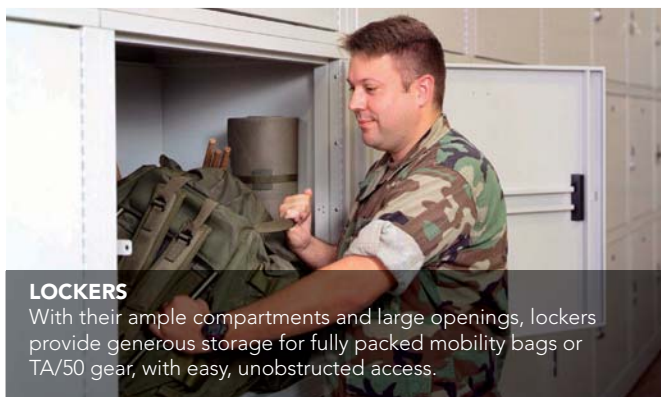

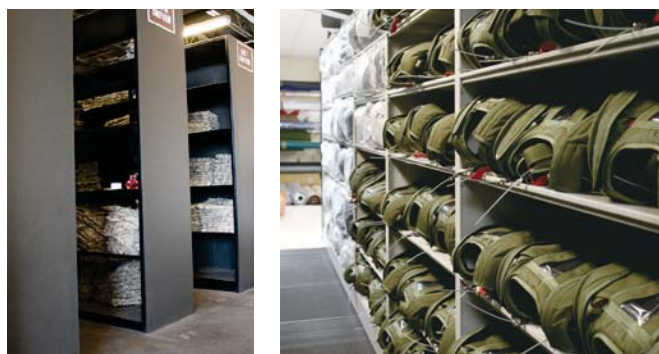

Each of our mobility storage solutions provides organization and quick, easy personal access, along with a high level of security and control to meet your specific needs. Store all types of gear including:

- » Aviation Life Support Equipment (ALSE)
- » Goggles
- » Helmets
- » Hoods
- » First Response Personal Protection Gear
- » Uniforms
- » Training Wear
- » Mobility Bags
- » Parachutes

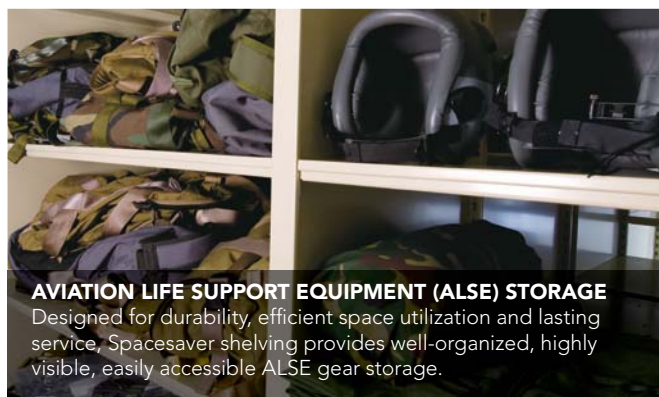

MOBILE STORAGE SYSTEMS

Doubling the storage capacity of your original space, our Mobile Storage Systems keep personal packs, mobility bags (above) and uniforms (below) organized, accessible and protected with a variety of optional security systems.

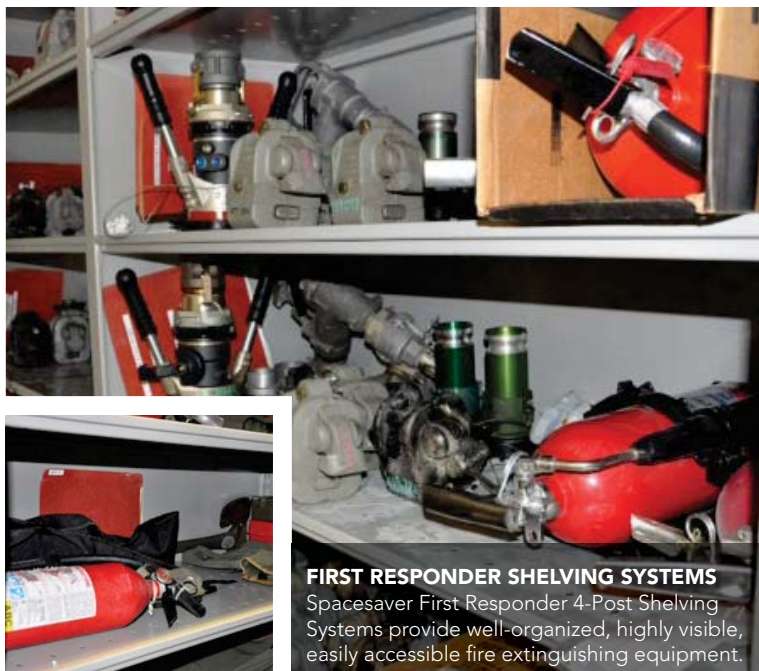

LOCKERS

With their ample compartments and large openings, lockers provide generous storage for fully packed mobility bags or TA/50 gear, with easy, unobstructed access.

AVIATION LIFE SUPPORT EQUIPMENT (ALSE) STORAGE

Designed for durability, efficient space utilization and lasting service, Spacesaver shelving provides well-organized, highly visible, easily accessible ALSE gear storage.

FIRST RESPONDER SHELVING SYSTEMS
Spacesaver First Responder 4-Post Shelving Systems provide well-organized, highly visible, easily accessible fire extinguishing equipment.

In readiness centers, Spacesaver storage efficiently houses supplies, equipment, rations – anything your unit needs for rapid deployment at a moment’s notice, all organized down to the last detail.

Rescue and life-support equipment can be warehoused and organized in the order it will be loaded onto aircraft. Spacesaver helps you store a diverse range of equipment and supplies with complete security. Store all types of equipment including:

- » Chem Bio Protective Gear
- » HAZMAT Suits
- » Decon accessories
- » Respiratory Protection
 - ◆ Gas Masks
 - ◆ SCBA's
- » Sustainment Equipment
- » Fire Extinguishers
- » Hose Fittings
- » Station Equipment
- » Calibration Equipment for First Responder Gear
- » Contamination Detection Items

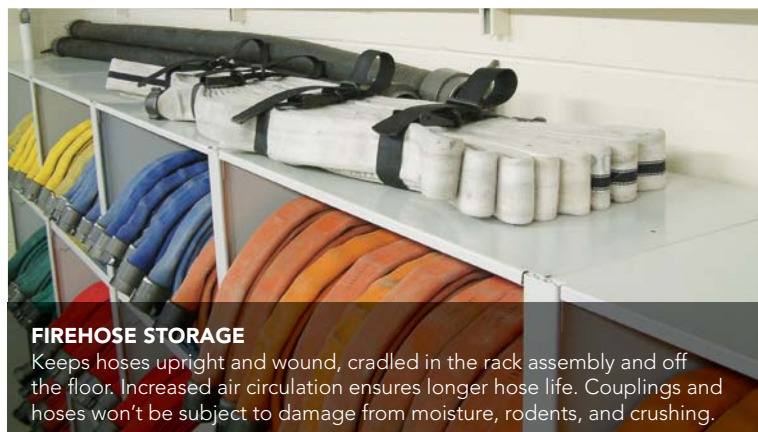

RECONFIGURABLE EZ RAIL® WITH PEGS
Store gas masks, SCBA's and other breathing assist systems in an easily reconfigurable, accessible storage system using EZ Rail, specials accessories (pegs) and 4-Post shelving.

AIR DROP PARACHUTE STORAGE SYSTEM
The Mobile Air Drop Parachute Rack system is an integrated and quick response/deployment storage system. Optimize space, mobility, and decrease storage footprints by compacting and mobilizing your storage.

PERSONAL STORAGE LOCKERS
Store your personal firehouse / turnout gear in this personal gear storage locker from Spacesaver.

FIREHOSE STORAGE
Keeps hoses upright and wound, cradled in the rack assembly and off the floor. Increased air circulation ensures longer hose life. Couplings and hoses won't be subject to damage from moisture, rodents, and crushing.

SMALL PARTS STORAGE

In your maintenance areas, tools, parts, bench stock, equipment and manuals can be kept close at hand to help increase efficiency in repairing, rebuilding and upgrading vehicles, equipment and facilities.

HIGH-DENSITY MOBILE STORAGE SYSTEMS

Spacesaver's HDMS double your storage capacity, and let you keep more equipment and other supplies right on site and readily accessible. Equip HDMS with doors and drawers to store tools and parts.

SECURE WORK MATERIALS STORAGE

Rotary storage units rotate, providing easy access to back-to-back storage compartments. When not in use, items can be locked in closed positions, presenting a clean, uncluttered appearance.

FRAMEWRX® STORAGE SYSTEM

Hang bins, trays and pegs on its innovative rail system to maximize storage of tools and parts and optimize workspace.

MEDICAL SUPPORT TEAM STORAGE

From pharmacy to surgery, from sterile supplies to patient records, each department in your military hospital or clinic has unique storage needs. With new developments in healthcare delivery, more instruments, supplies, and medications will need to be stored and easily accessed during the rapid deployment of first responders. Store all types of medical equipment, supplies and pharmaceuticals

- » IV Bags
- » Suture Kits
- » Prescription Drugs

CORESTOR® PATIENT SERVER SYSTEM

Restock medical supplies in the hallway, then conveniently access them inside the room when needed for the patient.

FRAMEWRX® HD

Compresses two rows of storage into one deeper space, thereby "saving and aisle." When space is at a premium, this is a lasting advantage.

HIGH-DENSITY MOBILE STORAGE SYSTEMS (HDMS)

Spacesaver's HDMS double your storage capacity, and let you keep more patient files, bulk pharmaceuticals, surgical equipment and other supplies right on site and readily accessible.

RECORDS MANAGEMENT SOLUTIONS

Consolidate medical records and sensitive documents in central, supervised areas close to the point of need. Controlled access allows you to increase accountability and better manage your files. Patient records storage must be highly efficient and highly secure to allow for immediate response to any alarm or call. Store all types of documents in Spacesaver storage, including:

- » Insurance and HMO forms
- » Patient Records

RECORDS MANAGEMENT SOLUTIONS

Consolidate medical records and sensitive documents in central, supervised areas close to the point of need. Controlled access allows you to increase accountability and better manage your files.

SECURE RECORDS STORAGE

Rotary storage units rotate, providing easy access to back-to-back storage compartments. When not in use, items can be locked in closed positions, presenting a clean, uncluttered appearance.
