CUVERRO ANTIMICROBIAL COPPER ALLOY PRODUCTS

Antimicrobial
Copper

Any product made from
stainless steel can be produced using
Antimicrobial Copper Alloys

FIGHT BACTERIA WITH COPPER

Antimicrobial Copper Alloy surfaces fight bacteria inherently. **Within two hours of contact, greater than 99.9% of bacteria* is killed.**

Antimicrobial Copper Alloys also help inhibit the buildup and growth of bacteria within two hours of exposure between routine cleaning and sanitizing steps

Midbrook is **EPA Registered** to work with and fabricate products using Antimicrobial Copper Alloys which are composed of at least 60% Antimicrobial Copper.

Midbrook Medical is an experienced fabricator that can custom develop products designed to work specifically for you.

Ask us today how we can bring the power of Antimicrobial Copper Alloys into your facility.

* MRSA, Staphylococcus aureus, Enterobacter aerogenes, Eschericia coli 0157:H7, Pseudomonas aeruginosa
