LEGACY LOCKERS
TEAM LOCKER SPECIFICATIONS
Section 10500: Wood lockers

PART 1 - GENERAL
1.01 Section includes: Provide new wood lockers and related items as specified.
1.01 Submit:
A. Shop drawings showing individual locker construction, materials, dimensions, room layout and dimensions for installation, installation details including finished and panels, filler panels, crown molding, risers and accessories provided upon request.
B. Stain and color chip samples for both wood and laminate doors are available upon request.
1.02 Product Handling:
Do not deliver lockers until building is enclosed and ready for locker installation. Store lockers and related products in a dry, climate-controlled area in order to protect finished from damage during storage and handling.

PART 2 - PRODUCTS
2.01 Materials:
A. Furnish Team Lockers as manufactured by:
   Legacy lockers
   900 South Blvd.
   Waco, Texas, 76706
   Phone (800) 327-1088
   Fax (817-297-1089)
B. Locker frame:
   a. Interior and shelves constructed of: ["Select One"]
      1. 3/4" Stain resistant, scratch resistant, high density thermally fused melamine from legacy's standard range of colors.
      2. 3/4" Industrial grade core with 0.05" vertical grade plastic laminate. Door edge edge-bound with 2 mm PVC offered in a variety of colors to match, closely complement or contrast selected laminate.
      3. 3/4" A-1 plain smoked veneer on industrial grade particleboard core. Available in many wood species and cuts.
   b. Locking systems:
      ["Select One"]
      1. Legacy Athletic Lock
      2. Heavy Duty Key Lock furnished with two [2] keys per lock
      3. Padlock Hasp
      4. High Security Hasp
      5. Masterlock Combination Lock
      6. Digital
      7. Other locks available upon request
   c. Hinges: Two [2] heavy duty, steel European concealed hinges with up to 190 degrees of door opening on all doors 42" or less. Three [3] hinges on all doors over 42".
   d. Hardware available in brass or chrome finish ["Select all that apply & quantity of each"]:
      i. Name Plate
      ii. Number Disk
      iii. Door Knob
      iv. Coat Rod
      v. Shelf Hanger
   e. Venting: Optional ventilation grills available in a variety of sizes and colors.
   f. Doors:
      a. 3/4" Stain resistant, scratch resistant, high density thermally fused melamine from legacy's standard range of colors.
      b. Laminate: 5/8" industrial grade core with 0.05" vertical grade plastic laminate. Door edge edge-bound with 2 mm PVC offered in a variety of colors to match, closely complement or contrast selected laminate.
      d. Raised Panel 3/4" A-1 plain smoked solid wood available in many styles and species. Raised panel is 3/4" thick. All style and rail joints are glued together with moisture resistant glue for increased durability. Door edges are rounded.
      e. Louver: 3/4" solid wood available in many species. All style and rail joints are doveetailed and glued together. Louvers are in fixed position.
   d. Ends and Fillers: Locker end, filler and back panels matching locker interior and/or door style covered exposed sides, backs and intersections.
   e. Finishes: Multiple finishes and stains available. All wood surfaces are finished using a catalyzed polyester lacquer applied in two coats with hand sanding in between coats and sealed with moisture resistant top coat. Custom stain matches available.

2.02 Fabrication:
Fabricate locker parts square and rigid without warps with the finished faces flat and free of scratches and chips. Lockers shall be built on the unit principle; each locker shall have an individual top, bottom, back and shelves.

PART 3 - EXECUTION
3.01 Installation:
A. Install lockers and accessories in accordance with manufacturer's approved layout, drawings and instructions for a plumb, rigid and flush installation. Finished and panels, back panel, filler panel, rail panel, and stop and top edges shall be installed using concealed fasteners.
B. Lockers to be installed on a 2" x 4" or 2" x 6" base design drawing, supplied either by manufacturer or by owner according to contract.
C. Extension from wall 2" less than the locker depth. Installation instructions and connector kits are to be provided by manufacturer.
D. Anchor lockers to wall studs or framing struts attached to wall through locker back and to the floor through the locker floor. Attach lockers together through predrilled holes with manufacturer supplied connectors.
E. Adjust doors and hinges to accommodate uniform spacing of all door installations of lockers. Verify all working parts of lockers including hinge and lock function. Attach number disks in specified sequence. Clean lockers and deliver keys and pertinent information to appropriate individual.

4.01 WARRANTY
All wood parts and hardware shall be structurally sound and free from defects in material and workmanship under normal use and service for a period of 50 years from date of delivery. All locking mechanisms are warranted for one (1) year.

Manufacturer reserves the right to modify, change or alter the design and/or specifications without prior notice. Lockers must be secured to the wall and/or floor prior to use for user safety.
Legacy Lockers: Your Choice For Custom Team Lockers

The days of bare metal cages are long gone. Modern construction techniques, attractive and durable finishes, and advanced electronics have entered the locker room. Networked audio/visual systems, phone and internet connectivity, even integrated fresh-air capabilities are only a few of the ways Legacy Lockers is preparing to meet the unique demands of modern athletic facilities. Legacy Lockers engineers every team locker for years of trouble-free service and like-new appearance. From rigid marine grade substrates to enduring finishes and high-strength assemblies, Legacy Lockers delivers the durability, functionality, and aesthetic quality you demand - and athletes will value - for years to come. For complete information on our team lockers and other product lines, please contact your representative today toll-free at 1-866-397-1088. Continue the legacy of your athletic organization - with Legacy Lockers.
