When you need to manage thousands of corporate documents with ease, Southwest Solutions Group can offer ironclad security and accessibility without the mountain-high monthly fees.

Together, we can move mountains and keep your business from overspending!

Running a corporation is no walk in the park—keeping track of documents alone is a difficult task. Every day, new documents are created and shared within your company. Add to that the fact that your organization has to keep its records for a certain number of years, and you have a gargantuan job on your hands of storing all those documents and making sure they are safe and easy to access.

Most companies resort to storing their documents in off-site facilities, but monthly fees can be expensive. Off-site storage also has its own risks such as damage to your documents, theft, and loss, just to name a few. Losing important documents can cost your company a lot of money. Additionally, losing important documents can have far more serious consequences than just monetary ones. The most sensible way to keep your documents safe and easily accessible is to digitize them.

Scanned documents are easier to access, easier to manage, and easier to share. Southwest Solutions Group has smart and affordable “scan plans” that can be customized according to your budget and your company’s unique needs.

🔹 We will keep your documents in our off-site facilities for FREE while we scan your papers.

🔹 Our on-site document scanning and document conversion services are in no way more expensive than our off-site services. We give great service at a FAIR price.

🔹 Outsourcing to us means you don’t have to hire additional personnel or invest in expensive scanning equipment.

🔹 Use our scanning services only for as long as you need to. Once all your documents have been scanned, you have the option to safely dispose of your papers instead of keeping them in an off-site storage facility. No more paying for mountain-high storage fees every month!

If your company is constantly “bleeding out” money over off-site document storage costs, NOW is the time to make it stop. Southwest Solutions Group offers high-volume document digitization that is cost-effective and constantly reliable.

Keep your corporate papers safe and easy to track. Stop losing money over lost documents! Let Southwest Solutions Group help you redirect all that money to your bottom line TODAY.
