Loaded with Essentials ... yet compact

This L-shaped mail center maximizes valuable space and accommodates efficient workflow by placing materials within easy reach.

Sized for a variety of needs, components reconfigure easily. Sort modules are available in six heights and widths. All products are backed by Hamilton Sorter's lifetime guarantee and over 45 year history.

Shelves feature full width, color coded labeling for quick, accurate sorting. Digital files are included for marking labels. Label colors are green, light green, magenta, canary, orange, gold, blue, electric yellow, electric pink and white.

Leveling system assures perfect alignment of components.

Ideal for high traffic areas, aluminum frame consoles withstand in excess of 1,000 lbs. Aluminum frames eliminate exposed edges and protect laminate work surfaces.

Hamilton Sorter’s standard collection of decorative laminates in over 20 colors and woodgrains with 4 worksurface colors allows you to coordinate worksurfaces and vertical sides for a custom look. Only the finest high pressure laminates are used on worksurfaces to eliminate chips and dents. For precise colors, ask your dealer for a Hamilton Sorter laminate chain. Custom colors available upon request.

All module and riser edges are sealed with impact-resistant PVC for durability; there are no exposed edges on our casegoods.

Wall to Wall Efficiency . . . and productivity

In just a 12’ square, this U-shaped mail center configuration provides an optimal work environment for inbound bulk sort and fine sort, and outgoing preparation, weighing and metering. Shown here is a unique 84” console that fully houses large meter machines — one example of a family of consoles sized to fit a range of equipment space needs.

Powder coating findings in an array of colors are also available. Chemical resistant 4 mil powder coat is double the thickness of most furniture grade powder coating and is excellent for high moisture areas.
