• Economical High Density Storage
• Innovative and Durable Storage Trays and Baskets
• Modular and Flexible for Lean Inventory Control
• Versatile Range of Carts and Cabinets
The H+H FlexModul is the result of intensive development work aimed at achieving the maximum variability in storage. The result is the best modular tray system on the market today that produces 30% space savings through flexible dividing.

- Light weight trays that are highly durable
- Greater storage capacity than competitor trays
- Smooth walls for hygienic cleaning
- Panel spacing of 1¼" gives higher density
- Simple and quick divider adjustment
SINGLE COLUMN CARTS

**MS8128**
Single Column with Tambour Door

**MS8128DR**
Single Column with Clear Panel Door

**MS8128CATH**
Single Column with adjustable Catheter Slide Shelf that includes 3 Cath Slides, 5 Hooks per Slide, for a total of 15 Hooks
DOUBLE COLUMN CARTS

- Offers over 35% more tray/basket storage capacity by volume when compared with leading competitor’s product, using any combination of 2", 4" and 8" modular trays; or 4" and 7" wired baskets.
- This increased storage means fewer carts need to be purchased for larger storage areas, reducing capital purchase cost.
- Further optimize space within trays with adjustable dividers that have a unique clip-on locking design to withstand high loads without being forced out of position.
- Unique design of the slide tracks on the side panels allows FlexModul trays to be extended and viewed at an angle without falling out of the cart (pull-out stopper required).

TRIPLE COLUMN CARTS

The MS8160 is a triple column medical storage cart, with tambour door, designed for quick access to medical instruments and supplies, featuring the most innovative modular tray system on the market.

The MS8160 can be configured for use in supporting various surgical procedures, including:

- Arthroscopy
- Cardiology
- Catheterization
- Cystoscopy
- Endovascular Labs
- ENT
- Interventional Radiology
- Laparoscopy
- Ophthalmology
- Orthopedic
- Neurology
- Urology
- Vascular

CATHETER PROCEDURE CARTS

Single Column

MS8128CATH
with catheter slide shelf, 3 catheter slides, 5 hooks per slide, for a total of 15 hooks, with tambour door

MS8128DRCATH
with catheter slide shelf, 3 catheter slides, 5 hooks per slide, for a total of 15 hooks, with clear panel door

• Cath Lab in a Cart: Designed especially for Cath Labs and IR departments
• Holds all sizes of catheters on full extension holders
• All-inclusive cart that keeps the necessary supplies together in one place
• Cath Slides feature a pair of ball bearing slides to withstand the pull force of removing catheters from hooks
• Cath Slide Shelves can be mounted in a lower position to create storage above for over-sized items
