

SPACESAVER ROTARY STORAGE SYSTEMS

BACK-TO-BACK STORAGE TURNS ANY SPACE INTO SMART SPACE.

It's a STORAGE REVOLUTION. We've designed a modular unit that rotates to OPEN OR CLOSED and transforms any space into high capacity, high access, MONEY-SAVING SMART SPACE

ACCESSIBILITY

More information, more types of media, more heights, more applications, more productivity...and it's all at your fingertips or a simple rotation away. Right where you need it the most. Access your important materials from one side or both sides...it's up to you and your floor space.

Place rotary units next to a wall or panel, as a room divider; build into an alcove; GET MORE FOR YOUR MONEY. Spacesaver Rotary Storage Systems are ADA compliant as well.

INCREASED CAPACITY

8 LATERAL FILES
@ 36 sq. ft.

3 ROTARY UNITS @ 17 sq. ft.

11 VERTICAL FILES
@ 41.25 sq. ft.

Increase storage capacity
UP TO 400% over conventional drawer
files. Decrease storage expense.
Eliminate off-site storage.
Improve efficiency and productivity.
Upgrade to the new storage standard.

FLEXIBILITY...NOW AND FOREVER

Spacesaver Rotary Storage Systems incorporate an Units, and the industry leading Full Adder Unit. open architecture design to house all your current Accessorize any unit to meet your individual storage requirements, plus unforeseen needs in the storage needs now and later. Twelve standard future. Expand easily with Starter Units, Adder heights are twice THE INDUSTRY AVERAGE

THREE MODULAR UNITS

STARTER

The first cabinet in any row of Spacesaver Rotary Storage units is always a Starter. This unit can stand alone, or Adder units can be connected to either side. Technologically superior to any rotating storage system, Spacesaver Rotary Storage accessories will conveniently store all your information effectively and efficiently in any of our 12 heights.

ADDER

Save valuable floor space by expanding capacity with Adders. Sharing the rotation space with its neighbor, the Adder reduces the necessary floor space of a Starter by 6 inches in width. The number of Spacesaver Rotary Storage units that can be connected together is limited only by the physical constraints of your space plan. For the ultimate in versatility, any Adder can be transformed into a Starter for additional flexibility.

FULL ADDER

Where active files demand increased accessibility, the Full Adder allows the freedom of simultaneous access to adjoining units. Connected to a Starter, the Full Adder does not share rotation space with its neighbor, but it does share the flexibility of all Spacesaver Rotary Storage units. And like an Adder, the Full Adder can be converted to a Starter.
