

# Big Screen Storage Made Easy

Shown above is the TiltNStore® Wall Mount Big Screen Display, model TX-1000.

## Why do wall mounted big screen displays make sense?

1. You want to display your big flat screens so they look really clean and sharp. Having them up high shows them off best.
2. Rigging up a temporary display above customers heads can suddenly become a problem you don't want.
3. Hoisting a big screen onto a temporary display can be tricky. Scratching it is bad and dropping it is worse. But if someone gets hurt, that is really bad.

## Why would you consider TiltNStore® Wall Mount Big Screen Displays?

1. This professional mount makes your big screens look like they should, big and beautiful.
2. Welded steel construction along with proper mounting ensure that you are getting a display that is strong and secure.
3. They are easy to load. The screen mount come right down to your finger tips with the push of a button.
4. The brackets are easy to adjust for any size screen and they are very secure.
5. Wall mounted lifts are low voltage and mount directly onto your shelving or wall space.

- Every TiltNStore® Wall Mount Big Screen Display comes assembled and ready for immediate mounting.
- It is simple to run a whole line of lifts along a wall, in fact you can run five lifts off of a single power supply.
- All TiltNStore® Wall Mount Big Screen Displays do the same thing, they go up and down. They are simple, reliable and strong.
- Because the display is an 'electric appliance' not a 'building improvement', you will enjoy a nice tax break.
- Every TiltNStore® Wall Mount Big Screen Display is made with pride in the United States of America.
- Your satisfaction is guaranteed and we stand behind our machines.
