Wood-Tek can be incorporated with many Aurora Storage Products including Aurora Quik-Lok Shelving, Aurora Mobile, and Times-2.
What do you get when you blend the warmth of wood, with the strength of steel? Wood-Tek shelving and cabinetry.

Wood-Tek’s classic good looks grace the hallways and front areas of business, legal and accounting firms, as well as libraries and schools across the country. Wood-Tek is not only beautiful, but strong enough to support the weight of the heaviest of media.

Wood-Tek provides unsurpassed beauty and a lifetime of value. Wood-Tek offers many advantages when compared to conventional millwork.

• Unlike millwork, Wood-Tek shelves are Aurora Quik-Lok, steel shelving that’s guaranteed to stay rigid and level.

• Wood-Tek shelves support greater weight than conventional millwork. One 36” x 12” span of shelving holds an excess of 300 pounds.

• Wood-Tek product is versatile and ‘portable’. If your business moves, Wood-Tek can move with you to preserve your investment.

• Wood-Tek comes in 2 wood species and 4 elegant stains. When combined with any of the 32 beautiful colors of shelving, Wood-Tek provides infinite design possibilities.
End Panels

- Buckingham
- Ambassador
- Carlyle
- Classic
- Shaker
- Federal
