The **4** S's of **SMART MOVES**

- **Secure:** Technology that protects contents while transporting.
- **Safe:** Evenly distributing Compressed Air allowing stacks to be raised at no risk to the shelving or books.
- **Sturdy:** Over fifty feet of loaded shelving is gently but firmly lifted and relocated.
- **Stainless:** Pneumatic technology distributes weight with compressed air, no risk of hydraulic fluid leaking.

Did you know?

Southwest Solutions Group will safely and securely move your library, museum, and other storage areas, without the need to unload your stored items.
