Southwest Solutions Group offers an excellent selection of stainless steel and painted steel cabinets. We also have a comprehensive offering of chemical fume hoods, flexible lab furniture, healthcare furnishings and work surfaces. We are a full service supplier for all your laboratory needs.

The Southwest Solutions Group team includes:

- **Furniture Specialists** to coordinate the most logical and cost effective layout to your lab.

- **Project Estimators** to provide a comprehensive estimate of your needs and project costs.

- **Design Specialists** to create CAD plan and elevation drawings maximizing available space and complying with established safety standards.

- **Project Managers** to oversee your project from start to finish.

- **Factory Trained Installers** to deliver a complete trouble free finish to your project.

Cabinet Construction Detail

Our cabinets are made from heavy gauge steel. They are fully welded and constructed for decades of performance. Base units have a load capacity of 500 lbs per linear foot. Our environmentally friendly powder coat finish helps to create a comfortable and practical lab environment. All of our cabinets come in an off white color of Pearl White. We bring quality, durability and beauty to your laboratory.

Steel Cabinet Construction

Cabinet Bottom & Base
- Completely enclosed toe space promotes lab cleanliness
- Lower corner reinforcing gusset with 2-1/2" height leveling bolt (full four corners)

Steel Door
- Two piece door construction
- Structurally sound deadened for added strength and quiet operation
- Five knuckle institutional type stainless steel hinge
- Positive plunger catch
- Rubber door bumpers

Steel Drawer
- One piece drawer body with radiused bottom for easy cleaning
- Full extension ball bearing drawer suspension provides 150 lbs load capacity
- Drawer head is sound deadened for quiet operation
Isolator³ High Performance Fume Hoods
With Vertical Rising Sash

For nearly 70 years, we have been developing innovative and purpose driven products for the research and healthcare industries. Our highly experienced team of engineers and designers are proud to introduce our latest effort: Isolator³.

Isolator³ is the latest generation of energy saving high performance fume hoods, built upon extensive R&D. Utilizing computational fluid dynamics, we were able to develop a safe and superior operating environment without the need for additional components to add or inject air into the hood chamber. By controlling baffle pressurization, Isolator³ achieves the proper capture and containment at a 60 FPM face velocity. Additionally, we do it with a sash opening of 24”.

- 24” deep clear interior
- Low static rectangular exhaust duct
- Integral stainless steel 12” round duct transition
- Slotted rear baffle for even plenum balance
- Can operate at 60 fpm with sash at 24” open
- Chemically resistant white Polyglass liner
- UL1805, ANSI/ASHRAE 110-1995, UL1275
- Chain & Sprocket sash mechanism with the exclusive lifetime warranty
- Exclusive standard 43 1/2” tall full view sash area
- Tempered glass sash with full-length formed steel handle for a neat, clean appearance and streamline air passage

Hood Features
- One pre-wired outlet on roof of hood for an optional alarm
- Two pre-wired 120V 20amp duplex receptacles
- One pre-wired 20amp light switch
- Pre-wired vapor tight T8 fluorescent light fixture
- Each hood side post and interior is punched and plugged to receive 5 service fixtures

Fume Hood Accessories

Fittings for Bench Hoods

These WaterSaver brand remote control fittings consist of a brass angle valve with a replaceable seat, an epoxy coated brass nylon color-coded panel flange with angle serrated hose connector (except LGS-3185-WV, which features a gooseneck with vacuum breaker), a remote control rod assembly with a plastic flange and a tank nipple, locknut and washer.

Fittings may be used on either side of the hood

TEL AFA-1000 Alarm

Each hood is pre-punched for the fast and easy installation of this alarm.

The TEL AFA-1000 provides a digital readout of the fume hood face velocity and sounds an alarm when the airflow falls below safe levels. Consisting of a thermostat sensor (mounted through the side wall of the fume hood) and a control monitor (mounted on the fascia), the unit gives both a visual and audible alarm. A glowing green light signals when conditions are safe. The control monitor also contains a test/reset button allowing the user to verify alarm readiness. The TEL AFA-1000 operates on a 9V DC circuit and comes complete with an adapter that is plugged into a prewired 120 VAC receptacle on the roof of the hood.

Catalog # A-1000
Sitting Height

- Standard without locks
- All cabinets include a cut-out for service access; if cabinet backs are exposed, a finished back is required
- Order work surfaces separately

Apron Rail
- Two rails required for front and back support
- Supplied with end support brackets
- Can be cut to fit in the field

Use apron rails to support work surfaces:
- Suspended between two base cabinets
- Between cabinet and wall
Panel End Supports

- Panel is 2” wide (5.1cm)
- Use in place of a cabinet at one end of a cabinet run to support drawer frames or apron rails
- Can be used to support the intersection of two aprons or apron rails
- Each panel has two leveling feet

Peninsula/Island Shelving System

L55
U-clip mounting Bracket

L81
12” deep undermount shelf brackets

L79
1 1/4” x 2”, cross members, provided in 12’ lengths, field cut to suit stanchion spacing

L80-7
84” tall shelving system stanchion with slotting on both faces

L84
12” deep bookend style shelf brackets

Available 1” rear retaining lips prevent items from being pushed off of shelf

12” deep black phenolic resin shelving stocked in 24”, 30”, 36”, 42” 48”, 54” and 60” lengths

L10
Base shoe

All components come in a brushed zinc finish.

Installation:
Mount base shoe to floor, adjust shelving stanchion to be plumb and level. Cut cross member to length. Drill holes in cross member for attachment of L55 U-clip. Secure L55 U-clip to the shelving stanchions. Work surfaces are specifically manufactured to receive and secure shelving stanchions.
**L44-3 Wall Standard**

- 1/2" slot
- 1" O.C.
- 1.250"
- .074"
- .500"
- 1.250"

<table>
<thead>
<tr>

<td>7' (213.4cm)</td>
</tr>
</tbody>
</table>

**Application:**
- Double faced, double slotted, peninsula/island shelving stanchion
- This shelving system is for use between back to back cabinets. Epoxy resin or phenolic resin worksurfaces are to be specifically bored to receive and secure stanchions.

**Features:**
- 16 GA. steel for superior strength
- Double slotted on both sides

**Finish:**
Brushed zinc

---

**Stanchion Spacing:**
Stanchions should be spaced so that the center line of each one is 3/4" longer than the respective shelf to be hung. See example to the right:
**L84 Bookend Shelf Bracket**

- **Part Number**: L84L
- **Length**: 12” (30.5cm)
- **Part Number**: L84R
- **Length**: 12” (30.5cm)

**Application:**
General purpose bookend shelf bracket

**Features:**
- 14GA. thick steel for superior strength
- (2) Die punched 1/4” diameter holes
- Works with L44-3 wall mount standard and L80-7 stanchion
- Brackets are available in left and right hand options

**Finish:**
Brushed zinc

**L81 Flange Style Bracket**

- **Part Number**: L81L
- **Length**: 12” (30.5cm)
- **Part Number**: L81R
- **Length**: 12” (30.5cm)

**Application:**
General purpose under mount bracket

**Features:**
- .085” thick tempered steel with stabilizer tab
- Keyhole slots for shelf mounting
- Works with L44-3 standard and L80-7 stanchion
- Brackets are available in left and right hand options

**Finish:**
Brushed zinc
**L55 U-Clip Mounting Bracket**

- **Application:** Fits inside L80-7 1 1/4” x 2” stanchion for the secure attachment to cross member
- **Finish:** Brushed zinc

Laboratory Work Surfaces

Custom Manufactured Work Surfaces

Please note that we offer custom laboratory work surfaces in both 1” thick black epoxy resin and phenolic resin. These custom work surfaces are available for shipment within 6 business days of approved drawings. They will be designed and engineered to suit your needs. Contact us for full details.

Work Surfaces without cutouts

- Chemical resistant black epoxy or phenolic resin
- 1” (2.54 cm) thick
- Curb must be ordered separately
- Front edge finished
- All other edges are square

Work Surfaces with Sink Cutout

- Chemical resistant black epoxy or phenolic resin
- 30" (76.2cm) depth
- 1" (2.54cm) thick
- Sink cutout 15" x 25" (38.1cm x 63.5cm) to receive a D55 drop in sink, fixture hole cutout diameter is 1 3/8" (3.5cm)
- Sink and fixture hole are centered in width of top
- Order sink separately
- Order curb separately
- Top depth: 30" (76.2cm)
- Front edge finished

**Accessories**

**Faucets**

**LB411-8VB-BH**
Deck Mounted Blade Handle
Hot and Cold Water Mixing
Gooseneck Faucet with vacuum breaker made of chrome plated brass with an 8" swivel gooseneck. Removable serrated hose connector. Valves are disc type with renewable internal assemblies.

**LB411-8V8**
Deck Mounted
Hot and Cold Water Mixing
Gooseneck Faucet with vacuum breaker made of chrome plated brass with an 8" swivel gooseneck. Removable serrated hose connector. Valves are disc type with renewable internal assemblies.

**LB611VB**
Deck Mounted
Gooseneck Water Faucet
Chrome plated brass with an 6" spread rigid vacuum breaker type gooseneck. Removable serrated hose connector. Valve is disc type with a renewable internal assembly.

**LB7833**
Distilled, Deionized and Ultra-Pure Water Faucet (deck mounted) made of chrome plated brass. All polypropylene internal construction with 6" spread gooseneck.

**LB0055**
Aerator for LB411 fixtures
Anti-splash aerator can be used in lieu of the removable straight serrated hose connectors supplied with the gooseneck water faucet. 3/8" I.P.S. male thread inlet.

**Electrical - All stocked in a satin aluminum finish**

**LB433SA-WS**
Single gang, double face
120 V/20 Amp
Supplied with outlets and cover plates

**LB633SA-WS**
Double gang, double face
120 V/20 Amp
Supplied with outlets and cover plates

**LB800SA-WS**
This electrical pedestal can accommodate a variety of styles and configurations. It can provide for as many as 8 outlets from a single pedestal and can also act to house communication services. Outlets and cover plates supplied separately.

Service Fixtures

Laboratory Ball Valves
Complete with 3/8\" I.P.S. tank nipple. Specify service desired by noting a G, A, N, or V after the part number

- **LB4200-131WSA**
  Gas, Air, Nitrogen or Vacuum Deck Mounted Fitting is chrome plated brass. Valve provides on/off control of gas, air or vacuum at pressures up to 75 PSI.

- **LB4200-132AWSA**
  Double Gas, Air, Nitrogen or Vacuum Deck Mounted Fitting same as No. LB4200-131WSA except consists of a 2-way 90 degree outlet turret and two laboratory ball valves.

- **LB4200-132SWSA**
  Double Gas, Air, Nitrogen or Vacuum Deck Mounted Fitting same as No. LB4200-131WSA except consists of a 2-way 180 degree outlet turret and two laboratory ball valves.

Emergency Equipment

- **LB806**
  Eye Wash (deck mounted) with two Gentle Spray outlet heads, stay-open ball valve and 90° swivel feature
  Right mounting. **LB806LH** for left hand mounting

- **LB1022**
  Deck Mounted Dual Purpose Eye Wash/Drench Hose with two Gentle Spray outlet heads angled at 45° and squeeze valve with locking clip.

- **LB909**
  Free standing 10" dia. drench shower made of orange ABS plastic. Has a 1" ball valve operated by a rigid pull-rod and easy grip handle. Eye wash fixture with stainless steel bowl, four Gentle Spray heads and a "PUSH TO OPERATE" ball valve. Eye wash and shower operate independently. Overall height is 80" 1 1.4" I.P.S. female thread inlet and outlet.
