PRIVACY LAW

FILEGUARD™ MAKES COMPLIANCE EASY

Laws related to securing personal info and restricted items are being stringently enforced by government agencies.

THE SOLUTION

- Standard or custom sized locking tambour doors conveniently secure file storage.
- Attach directly to the existing shelving.
- Out of the way when you don't need it.
- Call us to find a solution to your application.

DEFEND

IDENTITY THEFT

- There are an estimated 10 million cases of identity theft in North America each year. The effect on the victim's life is huge and underlies the need to do everything possible to deter this serious crime.
- Safeguarding your client's information is more than just compliance with the law – it's **GOOD BUSINESS SENSE**. Show your customers that you care about the security of their personal information and they will place confidence in your company.

CONFIDENTIAL

OPERATION

Choose from a selection of manual and electric options.

EXTENDERS

Extenders attach to new or existing systems and provide clearance for end tabs.

LOCKING

Push button key locks conveniently located at waist height.

END PANELS

Request a finished end panel to enclose the side of open end systems.
